ABOUT

I am a frontend and backend developer with a background in biological science. I'm a fast learner, a natural problem solver and have an innate curiosity to learn new things. Having recently graduated the Full-Stack Web Development course found at SPICED academy, I am now looking for a role in which I can continue to grow as a developer and build products with a motivated team.

WORK EXPERIENCE

GASTRONOMY AND EVENT CONSULTANT
Wakefield Consulting | Aug 2015 - Feb 2017

- Recommendation and implementation of menu design and the events format.
- Instruction on the use of space and interior design to be used for start-up events.
- Monitoring of relevant market changes and innovative products & techniques.

ENGINEERING COORDINATOR
The Sofitel Wentworth | Apr 2013 - Aug 2014

- Project management for the Engineering Department, ensuring on-time completion.
- Regulation of spending to maintain and control monthly budgets.
- Maintain open communication with contractors, companies and other departments.
